Small Business Coaching

We are matching emerging small businesses with established business owners for free coaching sessions.

Small businesses in the U.S.

We believe that small businesses like yours are the foundation of a thriving city. You are the source of job creation and economic development in your community.

28.8 million small businesses...

in the U.S. in 2013. Small businesses comprise 99.9% of all firms in the U.S. economy.

63.3% of net new jobs...

from the third quarter of 1992 until the third quarter of 2013 were small businesses.

79.9% of establishments survived...

of those who started in 2014 until 2015. About half of all establishments survive five years. About one-third of all establishments survive 10 years+.
